HIGH-EFFICIENCY HEAT PUMP

ASZC18 | Up to 18 SEER | Up to 9.5 HSPF

Distinguishing features:

**ComfortNet™
Communicating
System Compatible**

Thermostats have evolved beyond just indoor temperature adjustments, and a ComfortNet communicating control offers an abundance of easy-to-use, comfort-enhancing capabilities on its stylish touchscreen LCD display. From programmable, scheduled temperature settings and optional remote system control to continuous performance monitoring and automated maintenance alerts, a ComfortNet control offers an advantage in home comfort and control compared to non-programmable thermostats.

**Copeland ComfortAlert™
Diagnostics Module**

Engineered into all premium Amana® brand units, ComfortAlert enables the performance of your heat pump to be remotely monitored by your HVAC contractor. Proactively detecting operational deficiencies and potential systems issues not only helps ensure uninterrupted comfort; it prevents minor service requirements from becoming major repairs.

**Energy
Efficiency**

SEER or Seasonal Energy Efficiency Rating is a measure designated by the U.S. Department of Energy and gives you a good idea of the performance you can expect from air conditioners and heat pumps. At an 18-SEER cooling rating, the Amana brand ASZC18 Heat Pump can deliver up to an impressive 9.5 HSPF (Heating Seasonal Performance Factor). When you choose an energy efficient Amana brand heat pump, year-round indoor comfort is combined with year-round savings

A reputation that's as comforting as our products

While the energy-efficient performance and reliability of an Amana® brand ASZC18 Heat Pump will validate your purchase decision with dependable indoor comfort for years to come, it's the venerable Amana brand name that lets you be confident today. From our world-class engineering and comforting craftsmanship to our legendary limited warranties* and many other distinguishing factors, buying Amana brand means you can be certain you made the right decision.

SEER-ious savings—higher energy efficiency, lower operating costs

Get both better performance and lower energy bills compared to lower SEER heat pumps with a properly matched and installed Amana brand ASZC18 Heat Pump. It's our top-of-the-line heat pump up to 18 SEER, and the higher the SEER, the greater the efficiency. Chances are your current indoor comfort system was less than 18 SEER when it was new and has been gradually losing its effectiveness over its lifetime. So, your savings could be significant.

Quietly pumping out years and years of continuous comfort

At the heart of the Amana brand ASZC18 Heat Pump's dependable performance is its high efficiency Copeland®

two-stage UltraTech scroll compressor. Featuring premium compression technology and overload protection, its noteworthy durability and reliability are further enhanced by the use of chlorine-free R-410A refrigerant. Plus, an acoustically engineered, high-density foam sound-reduction cover mutes the compressor's operation to the point of comforting silence.

The security of the Amana brand's amazing warranties

To truly seal the deal, Amana brand heat pumps are backed by industry-leading limited warranties* which combine to offer homeowners a level of purchase protection that's the stuff of legend.

**LIMITED WARRANTY*
PROTECTION**

* Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the Lifetime Unit Replacement Limited Warranty (good for as long as you own your home) and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

Amana
LASTS AND LASTS AND LASTS.®

Amana® brand advantages for our high-efficiency heat pump

- ✔ **Copeland® Two-Stage UltraTech Scroll Compressor** – Designed with fewer moving parts and consuming less energy compared to reciprocating compressors, the compressor uses chlorine-free R-410A refrigerant and will provide years of reliable cooling comfort.
- ✔ **ComfortNet™ Communicating Systems Compatible** – Continuously monitors system performance and allows remote control of system as an option.
- ✔ **Copeland® CoreSense™ Diagnostics** – Advanced diagnostics constantly monitor your heat pump system, reducing failures and pinpointing trouble spots for a fast fix.
- ✔ **SmartShift™ Technology** – Specialized time-delay defrost technology allows for a reliable, quiet and smooth transition when units enter defrost mode.
- ✔ **Heavy-Gauge, Galvanized Steel Enclosure with Sound-Control Top** – A louvered cabinet protects the coil, while its appliance-quality, post-paint, baked enamel finish protects your system from outdoor elements.
- ✔ **Factory-installed Bi-flow Liquid Line Filter Drier** – Protects the refrigerant system from dirt and moisture for longer service life compared to units without filter driers.
- ✔ **Factory-Installed Heater Band and Suction Line Accumulator** – Ensures refrigerant is ready even in extreme external temperatures.
- ✔ **Quiet Operation** – An acoustically engineered sound control blanket helps reduce noise levels compared to units without sound control blankets.
